

Parts Included:

1 Bottom Shelf

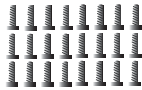

4 Legs

2 Screw-On
Leg Levellers

24 Screws

HH10 - 24 x 3/8
Thread Cut Screws

2 Wheel Assemblies
wheel, axle, end cap and lock collar

Installation How To....

Tools Required:

- 3/32" Allen Key
- 5/16" Hex Head socket and driver

Installation Steps:

Step 1 Attach legs to bottom shelf: (diagram A)

Bottom portion of the leg has a plate installed to allow for the leg leveller (diagram B)

- * To ease installation, assemble leg components and bottom shelf upside down.
- * Using a 5/16" Hex head socket and driver, install 4 of the supplied screws to secure each leg to the shelving unit.
- * Ensure that the shelf is facing with the flat surface facing downwards toward your working surface.

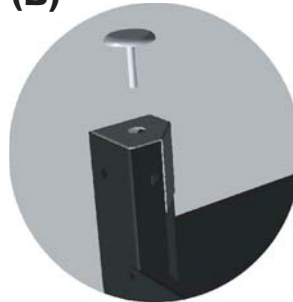

(A) Legs and Shelf turned Upside Down

Step 2 Install leg levellers: (diagram B)

- * Install the levellers on legs 1 & 2 (diagram A)
- * Turn each of the leg levellers in a clockwise direction into the bottom leg plate. Turn approximately 1/2 of the way in.

(B)

Step 3 Install wheel assemblies: (diagram C)

- * Install the wheel assemblies on legs 3 & 4 (diagram A)
- * Insert axle through the leg assembly.
The wheel should be on the outside edge of the assembly.
- * Slide the lock collar onto the axel.
The collar should be close to, not tight to, the leg.
- * Using the 3/32" L key, tighten the set screw firmly against the axle.
- * Turn assembled leg kit over, so levellers and wheels are facing the ground.

"The Innovators."

Installation Steps: ... con't

Step 4 Attaching the Country Smoker: (diagram D)

- * Carefully lift the TG300 Tailgater up and onto the leg assembly
 - the Smoker legs will slide down and over the leg assembly.
- * Starting at one leg:
 - line up the pre-drill screw holes both on the leg and on the side of the Smoker.
 - using a 5/16" Hex head socket and driver, install 2 of the supplied screws to secure each leg to the Smoker.
- * When one leg is complete, continue the same steps on the remaining 3 legs.

Note: You may need to touch up the painted surface. Follow directions located in your owner's manual in the grill maintenance section.

Step 5 Final Check:

- * Ensure that the "J" Grease Can Hanger is installed and your favorite empty beverage can is hung with care.
- * Ensure the Burn Grate and Burn Pot are correctly installed.
- * Check the installation of the "Arched Flavor Guard" and cooking grid.
- * Ensure that the unit is connected to a grounded electrical connection.

Refer to your Owners Manual for further detailed information.
