## HOME HEATER 300, AUTOMATIC, GOLD DOOR

### Dansons' Model HGBH32GD

UPC 684678030xxx

#### Standard Features Benefits

- 300 lb. Capacity Hopper
- Potential burn time from 55 to 150 hours.
- 15,000 BTUs to 50,000 BTUs
- Heats up to 2000 sq. ft.\*
- Double Row Heat Exchanger
- 13 stainless steel heat exchange tubes (plus radiant heat from the front and sides).
- 265 CFM Circulation Fan Variable Speed
- Ensures optimum controlled heat distribution.
- Engineered Auger System
- Provides trouble-free, even pellet delivery.
- Gold-plated Large View Arched Door
- Enjoy the visual warmth of a burning fire.
- Built-in Air Wash
- Helps keep the window clean for your viewing enjoyment.
- Super Grate Technology
- Allows you to burn premium to low quality pellets. Reduces clinkering or loading up.
- AcuTron Control Board
- Manual climate control. Easy to use digital touch pad synchronizes the air/fuel mixture.
- 300 Watt Auto-Igniter
- Easy push-button start. No messy starters to deal with.

Side-mounted Draft Control,  
Mobile Home Approved, Inside or Outside Air Intake

### Options

- Dual Mode Fully Automatic Thermostat Control
- **You choose:** On/Off on Demand, or Low/High cycle. You can set the room temperature and relax.
- Fresh Air Intake Kit
  - 3' Kit ACFAKT3 Comes with 3' X 2" aluminum duct, hood, and 2 clamps.
  - 10' ACFAKT10 Comes with 10' X 2" aluminum duct, hood, and 2 clamps.
- Log Set ACLOGCL1
 

Each one-piece log set is individually handcrafted of stainless steel to give the appearance of real wood. This stainless steel design is a better heat conductor than traditional ceramic, as heat is reflected back into the burn chamber.

\*Approximate heating capacity: figures will vary depending upon quality of fuel, floor plan, heat loss of structure and geographic location. Due to ongoing development, specifications may change without notice.
